Leader Psychometrics Accreditation

For HR Consultants, OD Professionals and
Independent coaches

INTRODUCING LEADER PSYCHOMETRICS

SMART LEADER PSYCHOMETRICS consists of a suite of profilers that provide insights and preferences about a leader. They are used by leaders and their leadership coaches to identify a leader's key development areas.

The suite of tools includes:

- **Wired-Up Personality profile**
- **Work-With Interpersonal Needs profile**
- **Mojo | Resilience status**
- **Lifestyle Diagnostics**
- **360° Leadership Mirrors**
- **Goal Setting & Pulse**
- **Weekly Reflections**

This toolkit is comprehensive, easy-to-use and understand, and presented in a Leader Dashboard along with a highly useful Coaches Corner where the coach can access all data in an integrated in-depth format. A big benefit for leaders and coaches is that the full suite of psychometrics are sourced from one supplier.
